

5 tips to make your NNI@TTSH Campus visit easier

1 Keep your phone or identity card handy

All patients and visitors **must** check-in at the:

- Entrance of Tan Tock Seng Hospital (TTSH)
- NNI clinics

This makes it easier for contact tracing if needed.

2 Come with one person

Only one accompanying person is allowed per patient to ensure safe-distancing in the clinics. If you need extra help during your visit, approach a staff member.

3 Coming by taxi? Drop at the TTSH Ward Block Entrance

Ask the driver to drop you off at the TTSH Ward Block entrance as it is closer to NNI and less busy than the other entrances.

4 Driving? Park at Basement 3 or 4, near Lift Lobby B or C

Lobby B or C at the Atrium Block are the only two lift lobbies in use at B3 and B4.

Disabled parking is available at B3 next to Lobby C, at parking zones N8, P8 and P11.

5 Need help finding your way to our clinics?

Refer to our [handy guides](#) for directions to our **Neuroscience Clinic, Neuroradiology Department (CT / MRI scans)** and **Neurodiagnostic Lab (EEG / ultrasound)**.
